

# DIGITAL ARMOR

The Silent Guardian for Your Online World.

# Introduction

In today's digital world, staying safe online has become essential.

As the internet expands, risks like cyberbullying, phishing, scams, and privacy threats are also increasing.

Digital Armor is created to spread awareness, provide safety tips, and help users protect themselves and make smart choices online.

# Why Online Safety is Non-Negotiable?

In today's digital age, our lives are interwoven with the internet. While this brings immense opportunity, it also opens doors to new risks.

Cybercriminals are more sophisticated than ever, making awareness the first and most critical line of defense. With constant threats like phishing, scams, data theft, and privacy breaches, staying informed and cautious is essential. Online safety is no longer optional—it is a basic necessity for protecting our identity, security, and digital well-being.

# CORE RESOURCES

- 1. Online Threats
- 2. Safety Tips
- 3. Kids & Parents
- 4. Reporting & Help
- 5. Blogs & News

# A Layered Defense Strategy

Staying safe online isn't about just one tool. It requires multiple layers:

- Awareness & Education

Recognizing phishing attempts, understanding malware, and knowing what information to share are your first lines of defense

- Strong Technical Habits

This includes using strong, unique passwords for every account, enabling two-factor authentication (2FA), and keeping your software updated.

- Privacy Management

Regularly reviewing privacy settings on social media, understanding app permissions and being mindful of your digital footprint.

The background is a stylized illustration in shades of blue and purple. It features a large, glowing padlock in the center, surrounded by a network of white lines that resemble a circuit board or a digital mesh. The word 'PROTECTED' is written in a bold, white, sans-serif font, appearing twice: once on the left and once on the right, partially obscured by the padlock and the network lines. In the bottom left corner, a hand is shown holding a smartphone, with the word 'PROT' visible on its screen. The overall theme is digital security and protection.

# THANK YOU

Be smart, be safe, be digitally secure.
